

Assembly for measuring- and fine alignment applications

Assembly consisting of two parts.

Construction

Tailor-made construction. Screwed under consideration of the specific requirements. Final optimizing of the reference surfaces in mounted status.

Technical specifications

- › Dimensions: 1750 x 1600 x 1400 mm
- › Flatness and parallelism of base plate to other reference surfaces: 0,002 mm

Range of applications

- › Measurement technologies
- › Precision machine building
